1/19/68 3:00 P.M.

Advised Mrs. Norris that under the law, Dept's Attys. should be, & must be permitted, to confer with client without the T-V monitor and/or sound being on. Also, that for security reasons, the guards could remain in the cell-block, but could not be within earshot of lawyer-client conversation.

Also advised that anyone seeing Ray must be thoroughly searched prior to entry to cell.
