Re: Earl Ray case

Mr. Canale,

In Memphis a friend made the white "racist" might be involved in a conspiracy if a conspiracy is now disputed?

If so, that only casts further doubt on the already convicted and prosecutor Foreman.

Anyone with an I.Q. of 30 knows Ray was hired and paid to kill King. Are you afraid to investigate Kennedy or his family?

It seems to me, they have been rewarded - they profited by his death.

Kennedy has a right to white and black, I guess. Why keep on killing our Civil Rights?

Really look at the case openly

Where are the defenders of the North? Why should the North stand for all this talking back and slipping around laws? It makes us always suspect —

Yes, for a Crapplench Yankee and some Dam northern of the present state of affairs.

I like brave men and true — and believe any person associates with men like that.
