Dear Willie,

A couple of days ago Mr. Hill, the scribbler informed me of the contents of his next magazine article, as you probly know no one in the family will talk to him so naturally he had to find a dog to get some more lies off, and he gravitated to you, since you suppose to be my uncle, altho I think any ethnologist would dispute this, I am inclined to believe B who said you were offspring of pollies offspring. anyhow I am not interested in what you said of me but you should of had a little respect for your sister but I don't suppose a child molester would. also I suppose Hill told you he would keep your name in confidence when he talked to you but you made a mistake there as he is the same type as you. while you was giving him all of this info. about other people did you also tell him about yourself. among other things;

1. that you were in the penitiary for knocking an 70 year old man in the head for his ring.
2. that you were rejected by the army for mental reasons.
3. that psychiatrists have had you on narcotics for 20 years for mental defect and alcholism.
4. that you were found to leave the country and go to Guam for swindling former companies.

I hope you know you will get the chance if I have anything to say about it, I imagine you can expect a libel suit from that fellow I worked with too.

The state has several charges like you to testify against me so why don't you get a sloppy of pills so you can get your mouth open and closed and come on down instead of sneaking around giving stories to writers.

Jim
