Mr. Richard D. Schrieber
att at. Law, St. Louis county. 1-2-69

Dear Sir;

Their has been several artiles in one of the locals newspapers (commercial appeal) quoting statements attributed to you supposedly as a result of phone conversations you have purportedly to have had with a representative of the above paper. althoe their has been no byline its no secret that his name is edmondson, this idolt slinks around the jail soliciting gossip 'among other things' and when her can find someone to talk to him "like yourself", he writes some distorted artiles that the Attorny Generals office would like for the public to believe.
Also, he has been found guilty once of contempt of court for writing these artiles by the trial judge designated to try the instant case.
I don't want to go into all you have been quoted as saying, as you know, or should what you have or have not said. However I would like to remind you that making statements to the public through newspapers can work both ways, so for no one representing me has made any statements questioning your conduct in your dealings with the circuit attorneys office when you represented me in the St. Louis Trial. Further Judge Casey has been reported as telling the F.B.I. that I was convicted illegally, also the missouri supreme court had ordered a rehearing into my conviction as a result of an appeal to the Federal courts.
In closing I would respectfully request that you write my att. Mr. Percy Foreman, Houston Texas and inform him if you haven't been making these statements, If you have't.

over.
