Dear Sheriff Morris:

Enclosed is a copy of a letter to Bob Jones in Atlanta, which explains in part what this package of material contains. The guy in the pictures looks a little like me, some say, but is one of our engineers, and this shows him working on the original installation which was demonstrated October 4. Two Polaroid pictures show what we have now.

I will do some further checking on various aspects of the situation as we have experienced it here and will send you a follow-up memo. I called our chairman, Fogel, in Oakland, to get him thinking on it, and we will try to dust off our more eminent brains up and down the state to help. Meanwhile, we think the report to Judge Walker of October 1 pretty well summarizes the main arguments.

Fogel brought up something today which his father, a lawyer, mentioned -- that the Estes decision, which is so much against pictures in court, has quite a number of pictures in it to support what it says. The court needed them, and so do the news media. Incidentally, congratulations on your success with the pooled cameras. I presume Jones and the others will hear about that through your regular channels. Thanks for your interest, and it was a pleasure having the opportunity to visit with you on a quiet night in Hollywood.

Cordially,

Howard S. Williams
