Dear Bob:

It has been a month since I requested a conference with Mr. Arthur Hanes in regard to James Earl Ray. I have spoken with Sheriff Morris and Attorney General Canale and they are amenable to entering a motion to have information imparted to me as the appointed physician held to be privileged. As yet I have not had any word of a definite conference. I would appreciate your sending either a registered special delivery letter to Mr. Hanes or contacting him in some way with a record kept.

I did converse with Mr. Russell X. Thompson. He said that he had been contacted by you, but that he informed you he was not officially connected with the case. I feel that I am being placed in a position of embarrassment as further news stories are developing about the health of this patient, so I would appreciate your contacting this attorney in my behalf immediately.

Best regards,

McCarthy DeMere, M. D.
