- Visiting with Sheriff Pitchess to observe the techniques being used in [redacted] the incarceration and trial of Sirhan Sirhan. [redacted]

- This is of interest to us because of the world-wide attention brought to our two cities - Los Angeles and Memphis - by the murders of [redacted]

Kennedy and Dr. King this year. — We are very appreciative of the splendid cooperation Chief Aitchen and his staff have shown us on this visit and before. — We have attempted to offer them the same assistance and will continue to do so.

— We as law enforcement will know that now, more than ever before, we must assist one another in the face of adversity.

— It is heartening to me, as a citizen, to see the lengths to which officials of Los Angeles and Shelby County are

determined to go
to visit a
fair and impartial
trial for the
accused and to
assure his rights
— These two
cases are setting
many precedents
by the [redacted]
Nature of the
crime charged
to the new
circuit [redacted] arrangement
— I hope we

have no other such aims in our Nation that will demand the use of the private information we are gathering — But should they - God forbid occur, we will have done our best.
