Shelby County Tennessee
Memphis, Tennessee

Dear Bill:

I note from the new media that you have become a world famous person, especially since the unfortunate incident you had there in the assasination of Rev. Martin Luther King.

Enclosed is a copy of the July 19 edition of our local daily paper that you may keep for your collection.

You will recall that we were in high school together, and finished in the spring of 1950, Fulton.

I would be happy to hear from you from time to time.

Sincerely yours,

Verl
